

Downloading Links for Installation of TaxPro GST

Prerequisites Required for TaxPro GST

- [Service Pack 1 for Windows 7 \(32 bit\)](#)
- [Service Pack 1 for Windows 7 \(64 bit\)](#)
Service Pack 1 is required only for Windows 7 Operating System only if it is not updated with SP1. Download 32 bit Or 64 service pack setup, as per your system configuration. Not required for Windows 8 and above.
- [Microsoft .NET Framework 4.6](#)

TaxPro GST Desktop Application

- [TaxPro GST FY 2017-18 Beta Version](#)

Steps to be followed:

- Please download all the required files by clicking on the Setup Names and save it in a New Folder in your desktop.
- Install all the setups one by one in same sequence as given above. You just need to click next / execute whichever is visible at the installation screen.
- While Installing TaxPro GST Setup in Server, Select Server option and click next buttons only. No need to give Server PC Name in Server Installation.
- In case of Client PC installation, Select client option and give Server PC Name in next screen and continue with next button.
